WhatisKT_Survey

The whatisKT wiki has been online since 2008 at http://whatiskt.wikispaces.com/. The wiki is a compendium of terms and definitions related to Knowledge translation (KT). The wiki was designed to be a collaborative platform for KT researchers and stakeholders to debate the use of KT-related terms and their usage. Over the past 4 years the wiki has been visited regularly by people all over the world. However, visitors tend to visit only a few pages, and, to date, no user has contributed source material or started a discussion.

Objectives:Our intent with this study is to survey whatisKT wiki visitors, members and nonmembers to gain a better understanding of who our visitors are, what value they get from the wiki, why they have not engaged in the wiki, and ways we can facilitate collaboration on the wiki.

Thank you for taking the time to take our survey on WhatisKT wiki. The survey will take approximately 5 to 10 minutes of your time. Your feedback will help us improve the usefulness and usability of the wiki.This research study has received ethics approval from the McMaster Faculty of Health Sciences Research Ethics Board.
